

Network information publications

Purpose

To prescribe the rules about access to MTS Network Information publications.

Information services

Qualified Workers must have access to the following publications that relate to their area of work in the Network:

- Network Rules
- Network Procedures
- Network Forms
- Electrical Safety Rules
- Traffic Notices (TNs)
- SAFE Notices
- MTS minimum rollingstock requirements and registration conditions

Qualified Workers must be provided with relevant information about changes to the above publications which affect their work duties and responsibilities.

Organisations employing Qualified Workers in the Network must make sure that they provide workers with information and Network publications relevant to their duties.

Network Standards

Network Standards prescribe the minimum requirements for rail operations in the Network.

Network Standards must be met by organisations whose operations could impact the safe operation of the Network.

Organisations are responsible for ensuring that:

- they meet current Network Standards, and
- Qualified Worker-specific procedures are developed, implemented and maintained for their employees, and
- their employees' training needs are assessed, and

Network information publications

- appropriate training and briefing methods are established for their employees.

Responding to information services

Qualified Workers must read and use the information in relevant publications to do their work.

Authorisation

Network publications must be issued and authorised by an MTS Delegated Authority.

Procedures

MPR 721 Spoken and written communication

Effective date

28 April 2025
